TOMATOES					plant starts			harvest				
TURNIPS				seed	harvest							
ZUCCHINI				seed	plant starts			harvest				

JANUARY FEBRUARY MARCH APRIL MAY JUNE JULY AUGUST SEPTEMBER OCTOBER NOVEMBER DECEMBER

Using this Calendar

'seed' means direct seed outside into the garden, except where noted

'plant starts' means plant young transplants into the garden, either started inside/under cloche from seed or purchased starts

'harvest' harvest times vary depending on time of planting and other variables

P-Patchers are encouraged to consult the many excellent regional garden guidebooks as well as their own experience
